

# Comment utiliser BITEABLE ?

1. Pour ce faire, il faut commencer par créer un compte BiteAble dans Sign Up.

A screenshot of the Biteable website homepage. The background is a vibrant orange. At the top left is the "Biteable" logo. The navigation menu includes "Create", "Features", "Templates", "Blog", "Learn", "Plans", "FAQ", and "Contact". On the top right, there are "Login" and "Sign up - Free" buttons. A large red arrow points upwards from the bottom right towards the "Sign up - Free" button. The main headline reads "Make better videos than your competitors. On your lunch break." Below this, a sub-headline says "Sell more stuff with stunning videos. Create content in minutes. See results in no time." There are two buttons: "Make a video now" and "Learn more". The bottom section features a video player showing a blue robot character on a swing set, surrounded by a thumbs-up icon, a green dinosaur figurine, a yellow ring, and a smiling orange.

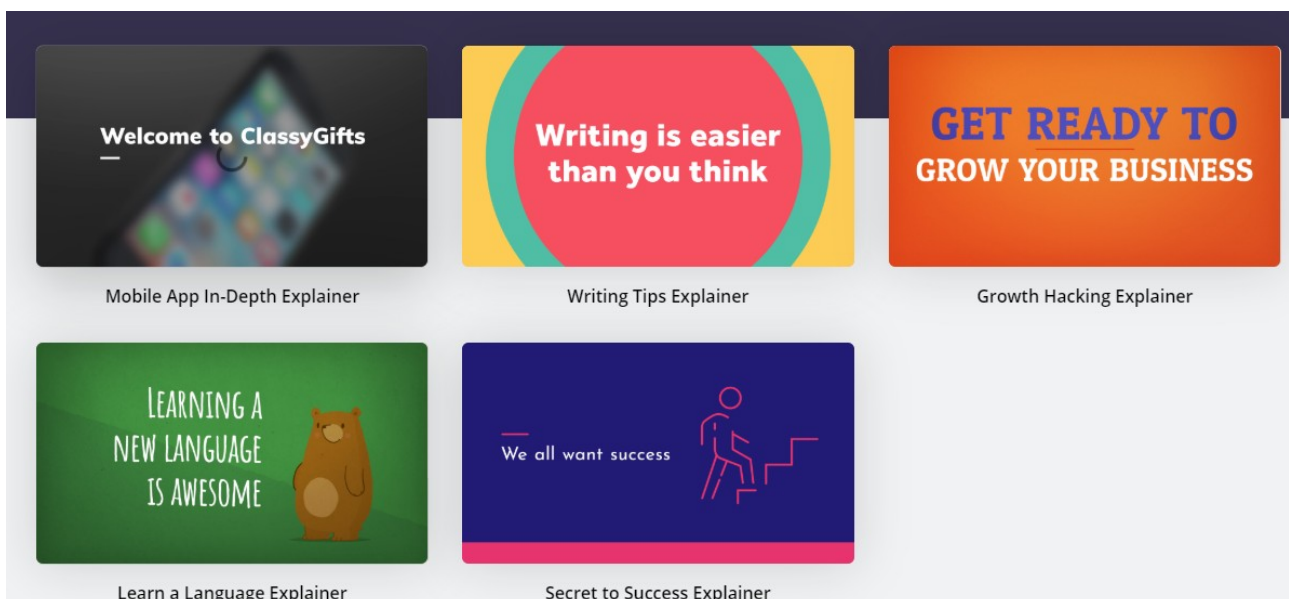

## 2. Ensuite, créer une nouvelle vidéo

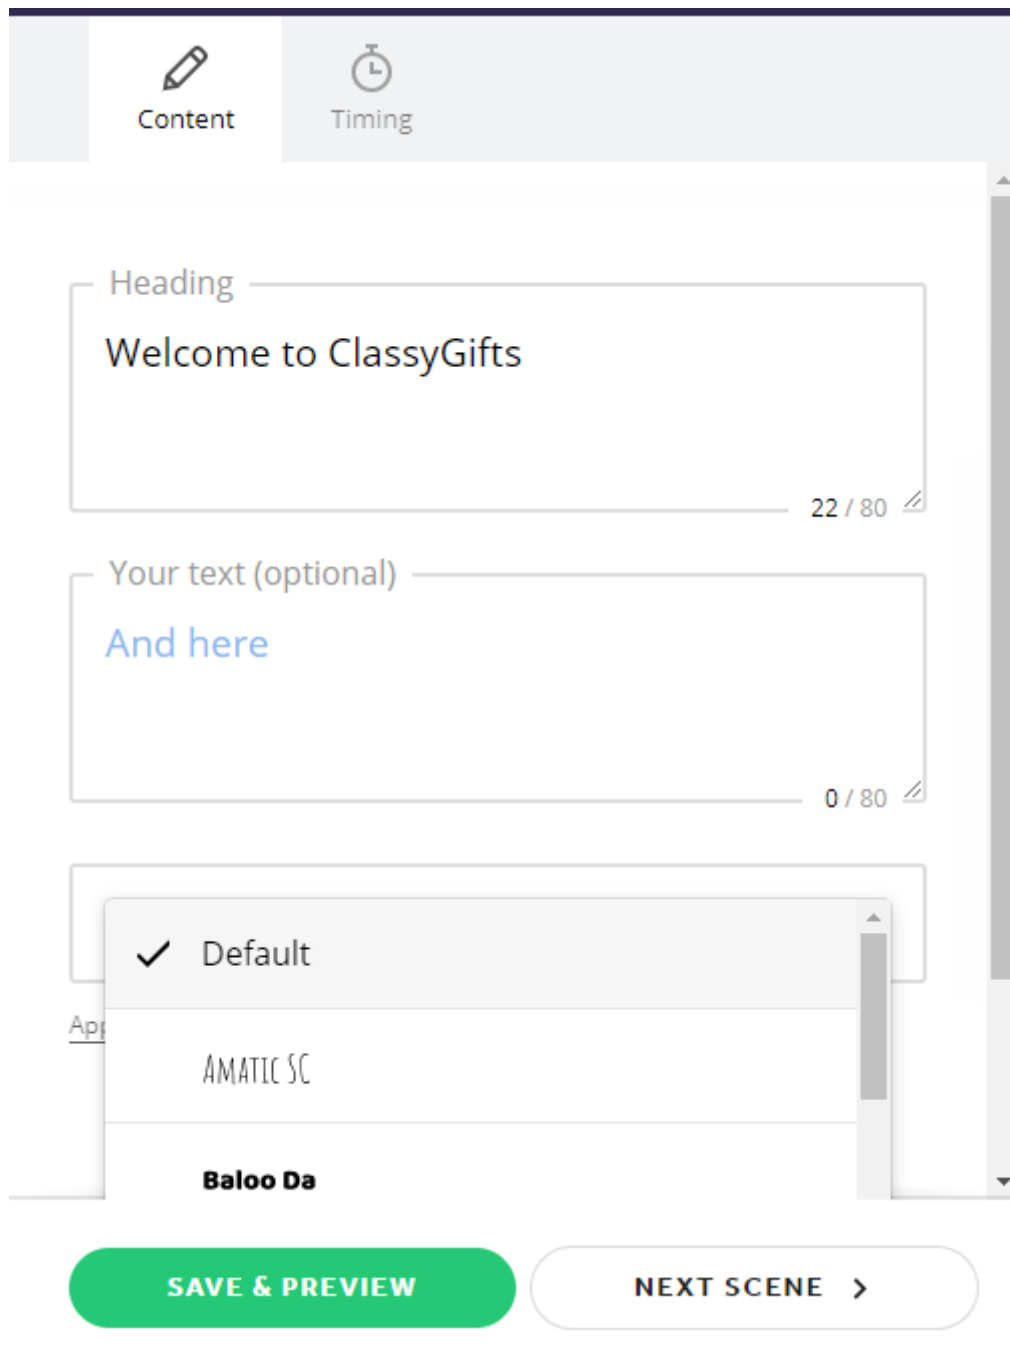

## 3. Entrer le champ de recherche

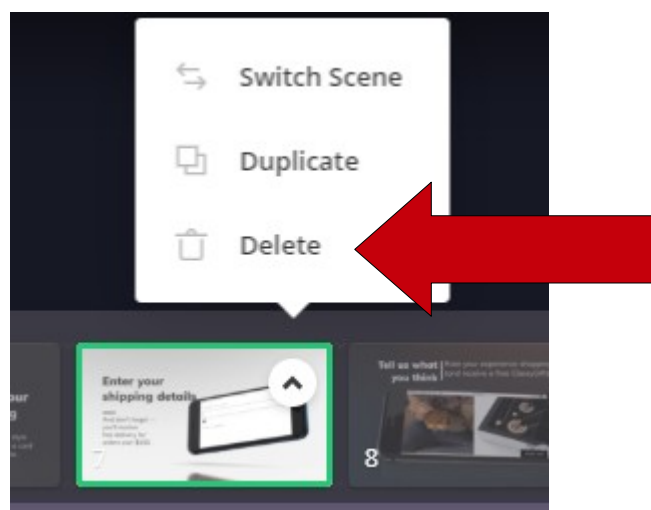

## 4. Choisir le modèle de la vidéo

## 5. Entrer les textes et le caractère

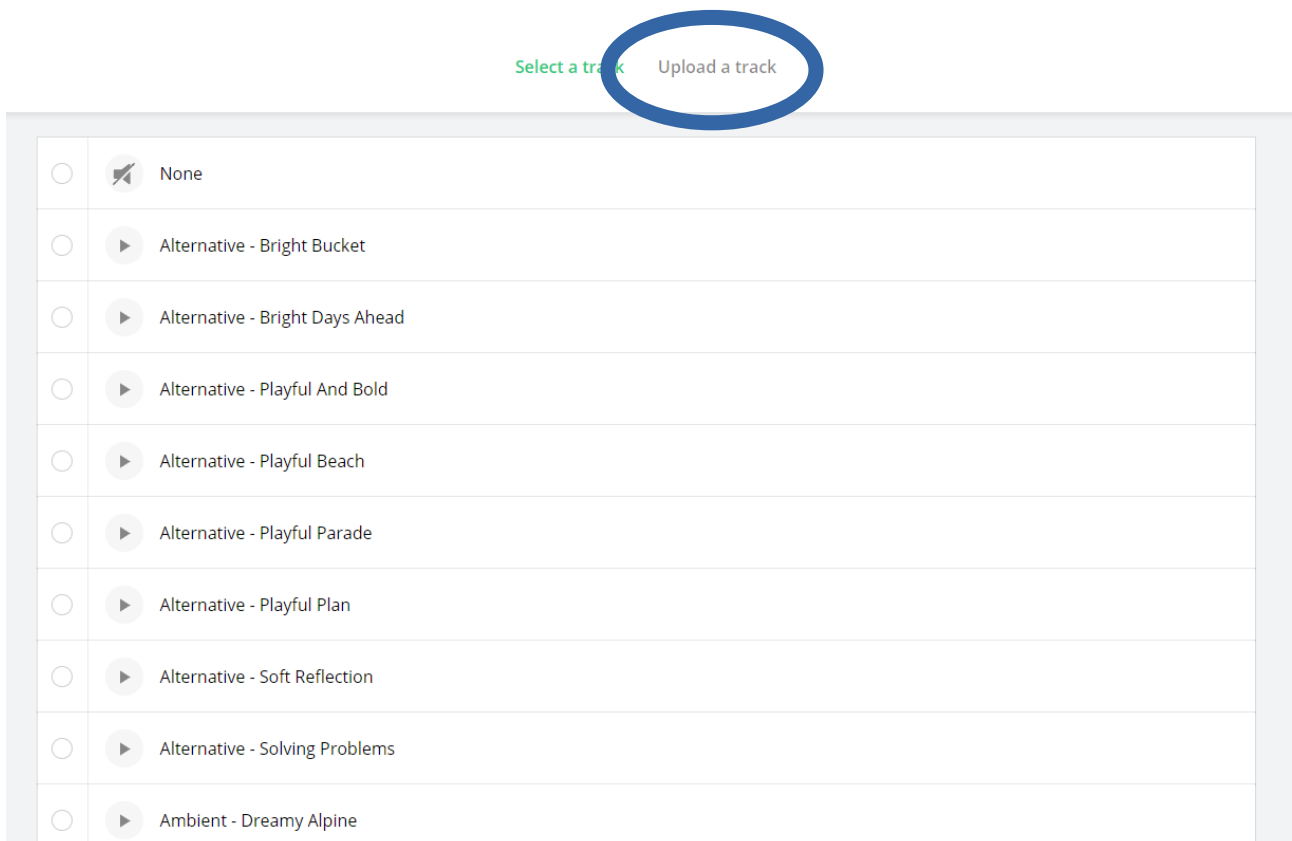

Et on peut aussi ajouter ou supprimer des scènes

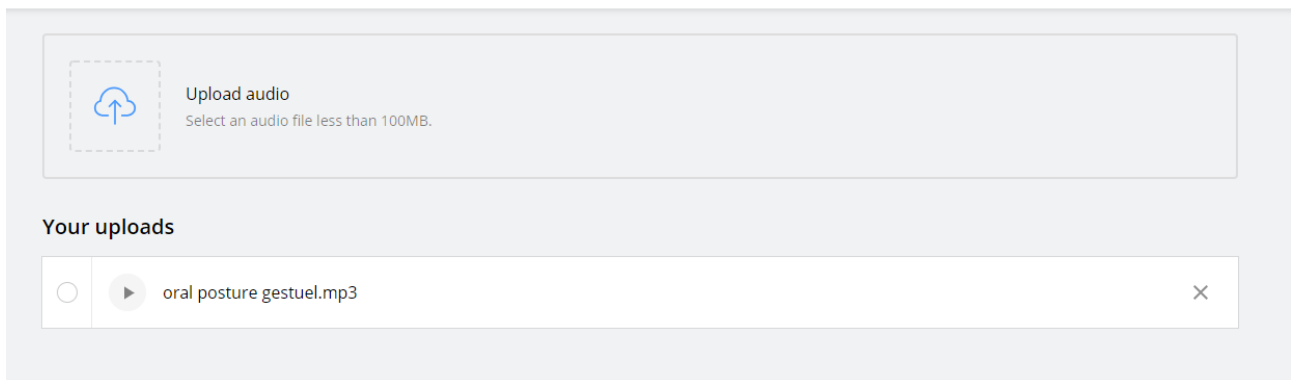

## 6. Choisir la couleur du fond

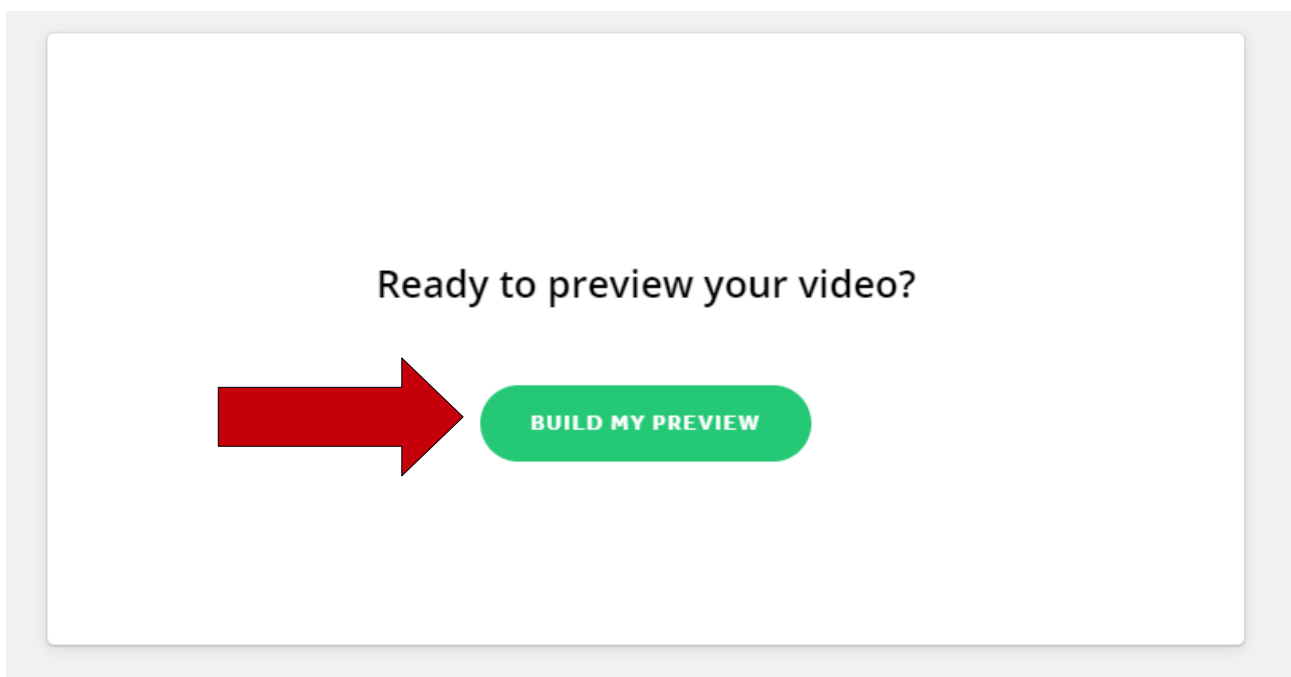

## 7. Choisir l'audio déjà enregistré ( format MP3 / au besoin : <http://www.the-converter.net/fr/audio> )

Ou télécharger des fichiers audio sur le site, en fichier MP3

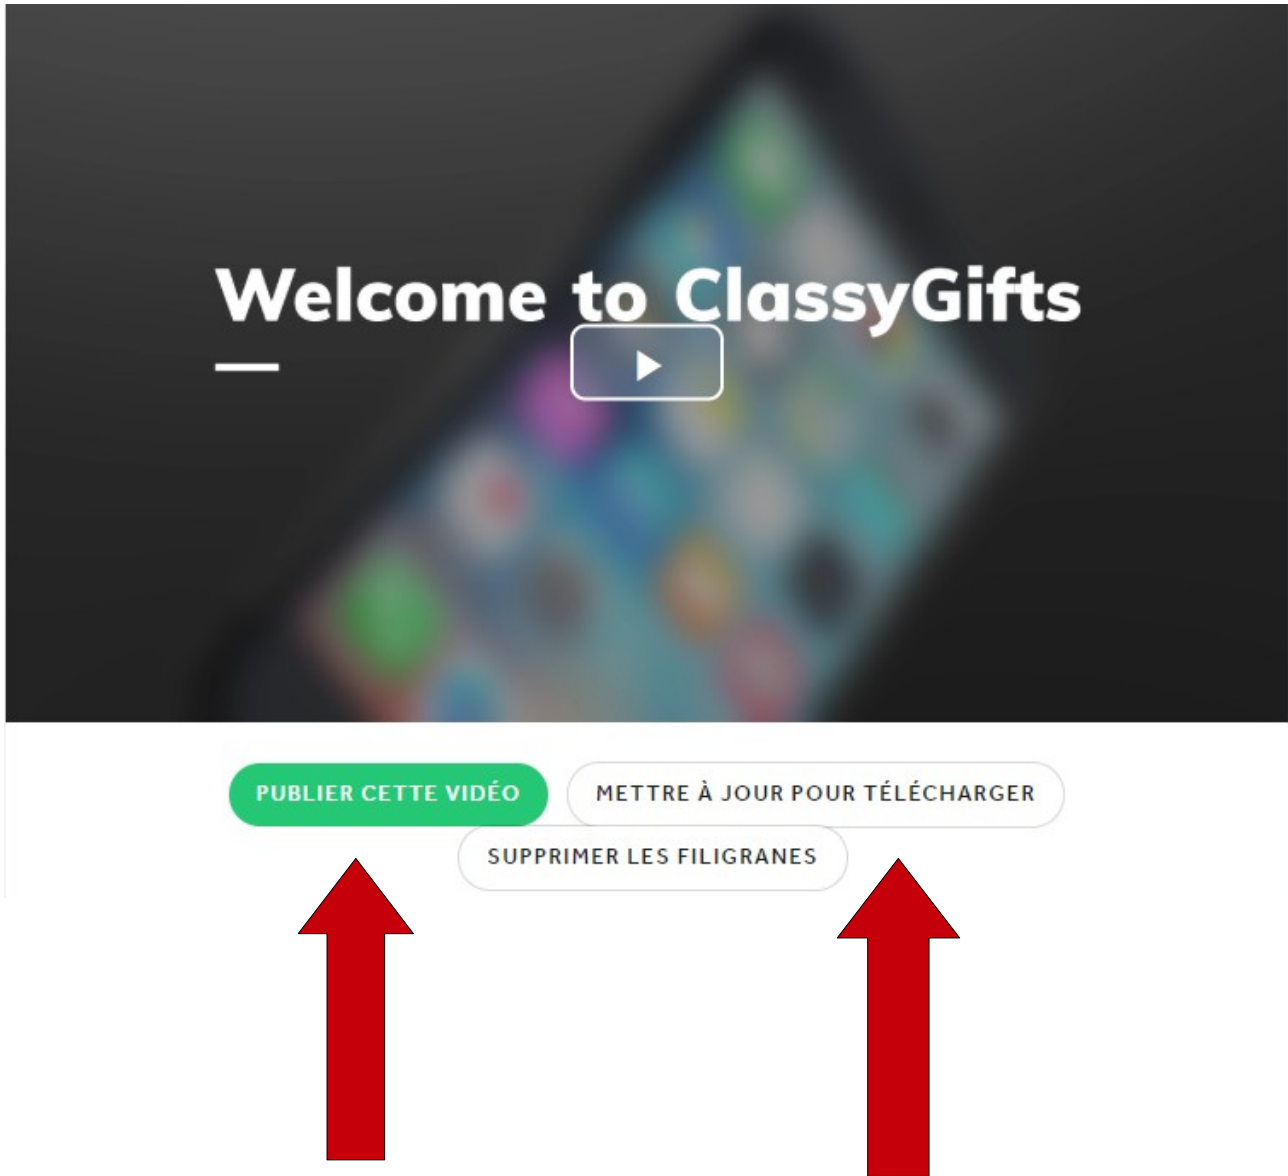

8. Et enfin prévisualiser en cliquant sur « Build my preview », pour y accéder, il faut appuyer sur :

9. Taper le nom de votre projet et cliquer sur **SAVE** et donner un nom à la production

## 10. Télécharger ou publier son projet

Maintenant, tu peux faire ta vidéo personnalisée !!
